elevato[®] privacy screen 2026

Privacy screen in light grey HPL and Modena decorative element

elevato[®] privacy screen – the easy-care fencing system

Design your privacy screen to be completely individual and unique! The elevato[®] system offers you an almost infinite number of possible combinations of different colours and materials such as HPL, ceramic, aluminium, Corten steel or stainless steel, giving your privacy screen project a very special design. Satin-finished glass and original stone veneers can also be used, adding stylish accents to any privacy screen system. What's more, installation is quick and easy.

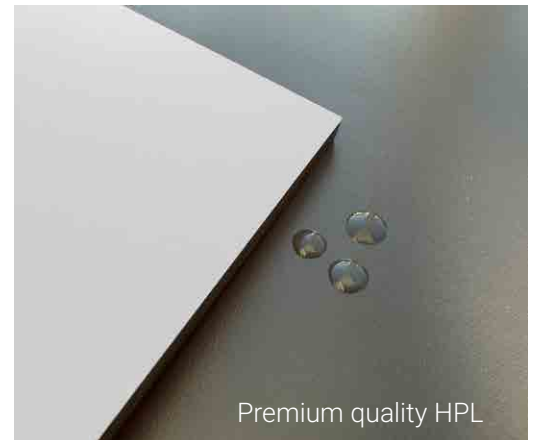

Advantages:

- extensive selection of standard elements
- many individual design options
- Numerous colours and materials can be freely combined with each other.
- quick and easy installation
- Custom-made products at affordable prices
- easy to care for

Quality Made in Germany

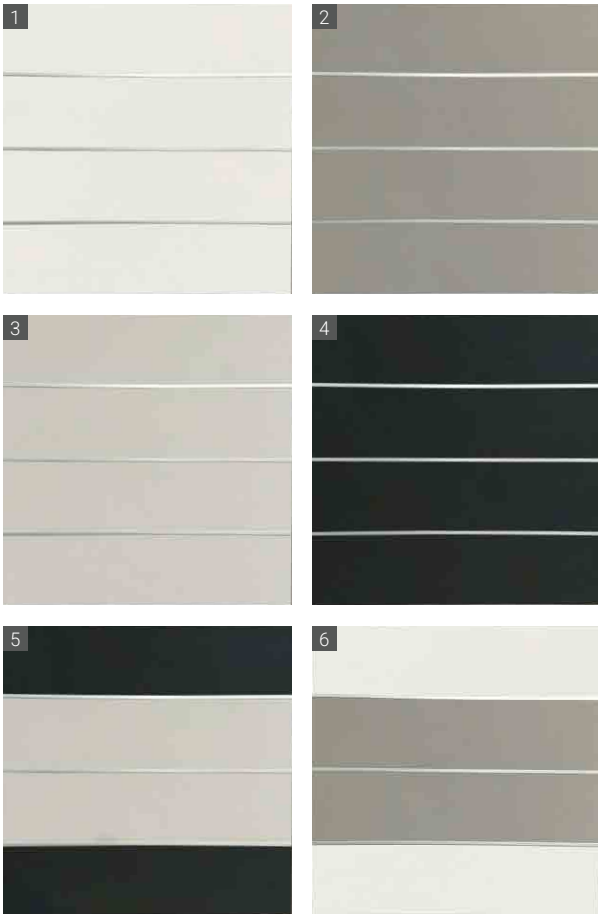

HPL (High Pressure Laminate) from Resopal meets all requirements for modern and contemporary privacy protection with "Made in Germany" quality. Decades of experience in the field of façade technology give the material its incomparable properties.

- impact-resistant and break-proof
- Surfaces UV stable and weatherproof
- frost, hail and rot resistant
- graffiti-resistant
- Environmentally friendly raw materials (use of PEFC-certified wood)

elevato® privacy screens – the product mix

The product combinations of HPL with powder-coated aluminium cassettes in chestnut brown, Corten steel and stainless steel give each privacy screen its own special flair and offer individual design options to suit every taste. The matching decorative elements in metal, stone decor or glass round off the range perfectly.

- attractive combinations of HPL and metal
- Easy installation of the 2 mm thick metal cassettes thanks to precisely fitting profiles with EPDM seals
- easy-care surfaces
- Also available as a fence and finishing element
- Matching decorative elements in metal, stone or glass add accents.

Privacy screen, ceramic grey

ceramics

Ceramic privacy screens set new standards in garden design. Depending on the colour combination chosen, the decorative elements combine with ceramic patio tiles to create an attractive contrast or a harmonious interplay of colours. The privacy screen decorative elements are available in a thickness of 13 mm and consist of 2 x 6 mm ceramic and an integrated safety mesh.

- as standard elements in three different colours
- as a modular system for individual design
- Material: 13 mm ceramic

Privacy screen in white HPL and plant wall

decorative elements

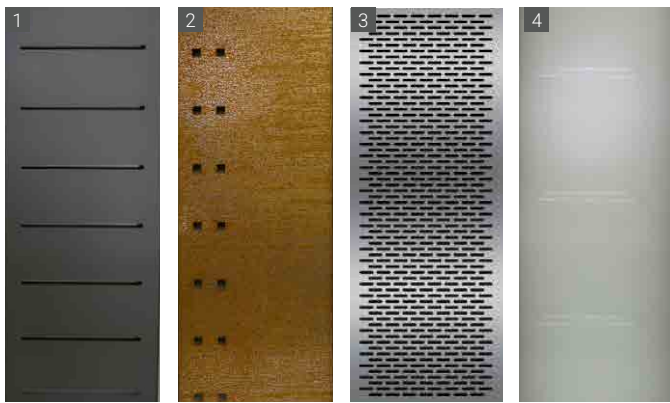

The decorative elements add stylish accents to any privacy screen system. The range of materials extends from aluminium to stone veneer, Corten steel and stainless steel to satin-finished glass.

The combination of decorative elements with HPL panels creates a perfectly coordinated overall look.

- numerous materials and colours
- Can be combined with privacy screens in HPL
- weather-resistant: frost-proof and hail-proof
- maintenance-free

Stone veneer

The unique stone veneer impresses with its individual structure and appearance. During the production of the decorative elements, 3 mm veneers are applied to both sides of an HPL substrate. The different types and layers of slate create truly unique pieces, each element radiating its own individual naturalness.

type	Colour	dimensions	Item no.	Price
5 4.5	Modena	65 x 175 cm	9032	325,88 €
6 4.6	Lugo	65 x 175 cm	9033	325,88 €

Plant wall / trellis

The elevato® plant wall adds natural accents to any privacy screen system. It can be combined with classic privacy screen elements, but is also a highlight on its own. There are many planting options – for example, as a decorative play of colours with flowers or as a usable raised bed. The plant wall consists of 10 tiers with 4 plantable compartments each.

The trellis is another way to break up your privacy screen with plants. The white HPL trellis provides a beautiful contrast to the colourful vines.

type	Execution	Colour	dimensions	Item no.	Price
4.7	trellis	HPL white	65 x 175 cm	9796	289,00 €
4.8	plant wall	black	65 x 175 cm	9670	399,00 €

Privacy screen and fence HPL white

Fences and finishing elements

The fences round off the elevato privacy screen range. You can choose from numerous standard elements or create your own favourite from the modular system. The proven product combinations of HPL and metal are also available here.

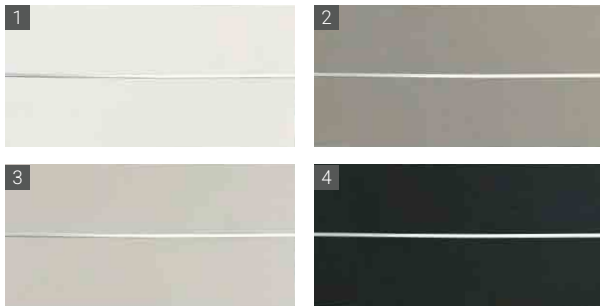

The elevato® end element was developed to ensure a seamless transition from privacy screen to fence. The end element can also be used to connect the fence to the house with an adjacent fence.

- extensive selection of standard fence elements
- Free combination of colours and materials possible
- Fence elements to match the privacy screen
- Custom-made products at affordable prices

Privacy screen in light grey HPL and decorative element in Modena stone veneer

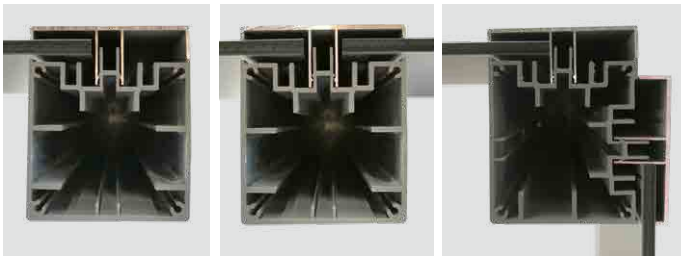

fastening system

The elevato®fastening system sets new standards in privacy screen installation. The few components allow for quick and easy installation, and the screw channels in the posts enable uncomplicated assembly, even on uneven terrain.

The delicate cover profile, which is attached without screws, gives the post an attractive appearance on both sides. It can be aligned to the desired side according to taste.

- very few components
- Uncomplicated and quick installation thanks to a simple design
- Attractive cover profile allows the post to be aligned on both sides
- Lengths of 93 and 223 cm enable installation with a slope

Door and double gate

The frames and stop profiles of the elevato® door and double gates are made of powder-coated aluminium and supplied as a pre-assembled kit. Thanks to the extremely stable construction, there is no need for diagonal struts. This gives the door an attractive appearance on both sides.

- Door frames and stop profiles made from powder-coated aluminium profiles
- without diagonal struts for an attractive appearance on both sides
- Door is delivered fully pre-assembled
- Includes fitting set, stop profile with strike plate, mortice lock and mounting accessories
- Galvanised steel post anchors for setting in concrete, designed to meet high static requirements
- Door handle sets including profile cylinders available in two different designs: anodised aluminium with lever handle or powder-coated aluminium with knob

Online planner

Is it possible to plan a privacy screen in just a few minutes with only a few clicks and without much prior knowledge? Yes, it is! With the help of our online planner, you will be guided through your project step by step and at the end you will receive your individual quote with a drawing.

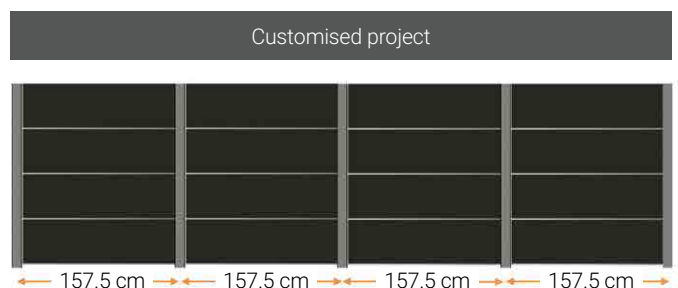

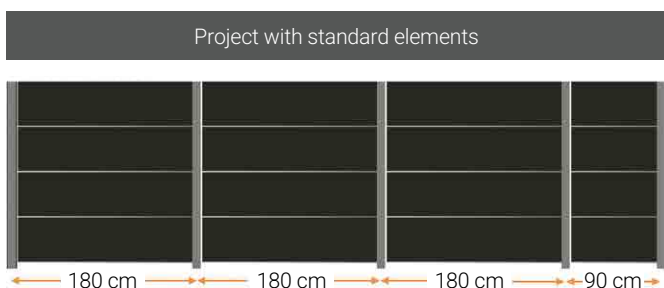

- Online planner at www.karle-rubner.de
- simple and quick needs assessment
- Drawings with all important dimensions
- Quotations can be prepared at any time
- Dealer recommendation in your area

Cost-effective customisation and individual colour choices

Customised products at fair prices. Select the privacy screen of your choice and have it cut to your desired size. Or would you like to add further accents to your privacy screen beyond the standard colour range? We offer an extensive colour palette and various designs for the customisation of your privacy screen.

- Custom-made products for all standard HPL elements (additional elements such as Corten or stainless steel available on request)
- special heights
- Decors in plain colours and wood effect
- Surface UV stable
- same decoration on both sides
